

Help Me Help Them...

Distance

Time

Access to Transportation

These three factors prevent many families who want to build a relationship with God through the local congregation in Romania from attending worship and fellowship opportunities.

I need you to join with me to accomplish this mission - to reach out beyond the boundaries of our faith and the borders of our nation to those who may otherwise be left behind.

Transportation for the First United Evangelical Methodist Association of Romania

"No One is out of God's reach!"

Help make my dream a reality!"

Kaitlyn

It all started in July 2010...

It was July of 2010 when I joined with my dad, the Rev. Dr. Bradley DeHaven, to participate in my first international mission trip. It was the opportunity of a lifetime. We traveled to Romania to aid in the construction of buildings and the human spirits of the newly established congregation known as **The First United Evangelical Methodist Association of Romania.**

While there, I not only focused on the scheduled tasks, but I asked God to guide me to see a need that I could adopt as a personal commitment to service and mission. My eyes were opened and my dream was born.

Seeking God's will means paying attention...

I noticed that in the Romanian community where we worked the main form of transportation was walking.

Walking is fine if you are only traveling a couple blocks or maybe a mile. But more often than not, the distance from a family's home to the church building is much greater than what can be walked.

Due to the inconvenience of distance, many potential church members just stay home and never get the chance to meet Christ and experience His love through the practice of corporate worship, fellowship, and Bible study.

The opportunity to take action....

The vision was revealed. In order to address this dilemma and provide a way for families to attend the faith-filled events provided through the **First United Evangelical Methodist Association of Romania.**

I am planning to purchase a multi-passenger van to transport congregants to and from worship, Bible study, and other church activities.

The cost of this bus is approximately €15,000 or \$18,000 US.

I plan to collect this amount by the close of 2011. During the summer of 2012 I will fly to Germany and assist in the purchase of the van, then personally deliver it to the pastor of the Church in Romania.

I need your help!
